The Montessori Early Childhood Teacher Credentialing Program directs a one or two year course, offering an opportunity to verify and develop the gifts that reside inside each of us for helping children in their self-learning. We prepare Montessori teachers with a deep grounding in the Montessori Philosophy. We develop individuals who have a broad approach in the contemporary context of child development and educational thought. We create teachers as “scientific pedagogues” who see the classroom as a dynamic system that “follows the child” in the pursuit of intellectual and moral and social needs.

The curriculum includes lectures on the philosophy, psychology, principles and practices of Dr. Montessori. There are supervised demonstrations and practical sessions with the Montessori apparatus, observations and practice teaching as part of the training. Lectures include early childhood development, and the relationship between Montessori education and current childhood educational and social theory.

Teaching credentials are given upon completion of all requirements.
